

Adobe: Real World Design Solutions

A Project Based Class on "Big 3" digital design programs used in the graphics industry today:
Adobe® Illustrator®, Adobe® Photoshop®, and Adobe® InDesign®

This brand new Real World Design Solutions Course will provide you with a full-color, comprehensive overview of the "Big 3" digital design programs used in the graphics industry today: Adobe® Illustrator®, Adobe® Photoshop®, and Adobe® InDesign®. This course examines the essential features of each, then reveals in practical detail the skills and technology necessary for effective design for print and Web Media. This is project-based class that will feature a highly visual introduction to the essential tools and functions of each application from the perspective of the working designer. You will be given the opportunity to put what you learn to work by tackling a design project from concept to completion with assignments lead by the instructor.
