HILLSBOROUGH COUNTY MEDICAL CERTIFICATION SCHOLARSHIP

Program must be completed by March 30, 2023.

In partnership with

Hillsborough County Florida

Hillsborough County Board of County Commissioners

HEALTHCARE APPROVED COURSES

- **Certified Clinical Medical Assistant**
(Only Start Date Available: October 13, 2022)

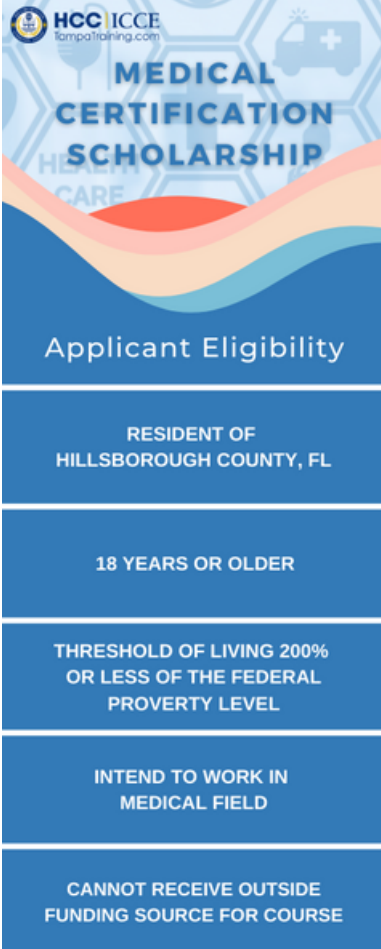

In this course, you will learn and perform methods of preparing patients for examination and treatment, routine laboratory procedures, and specimen collection including blood collection (phlebotomy), running live electrocardiographs (EKGs), and recognizing heart rhythms. Gain hands-on experience with critical procedures and concepts in phlebotomy, EKG, pharmacology, professional workplace behavior, ethics, and the legal aspects of healthcare. You will also complete an introduction to medical terminology, healthcare etiquette, and healthcare customer service to stand apart from others in a competitive job market.

- **Patient Care Technician**
(Only Start Date Available: October 27, 2022)

This course will teach you the technical skills necessary to service complex patient personal care issues including rehabilitation services, basic bedside care, collection of laboratory specimens, phlebotomy, and EKGs primarily geared for both the inpatient and outpatient setting. As a Patient Care Tech, you will work alongside doctors, nurses, and other healthcare providers to oversee and monitor patients. This training will provide you with basic medical knowledge and hands-on skills necessary to perform or obtain technical diagnostic testing and perform direct patient care.

- **Phlebotomy/EKG Technician Combo**
(Only Start Date Available: November 9, 2022)

This course is designed to give you hands-on experience and skills needed for the National Healthcare Association (NHA) certification through a combination of didactic hours and hands-on clinical training. You will perform, per NHA requirements, 30 live venipunctures and 10 capillary punctures in both lab and clinical settings and learn how to process lab specimens. This program also provides training for administering and reading EKGs including the anatomy and physiology and disease processes that affect the heart, medications, Holter monitoring, 12-lead EKG, analyzing EKG readings, and much more. You will perform at least 10 live EKGs per NHA requirements.
