

Empower students with next-gen technology.

Free summer STEM enrichment program for middle school students

Every student deserves access to a better future. That's why we've launched the Verizon Innovative Learning STEM Achievers program—an engaging, hands-on program developed to enrich learning through design thinking, 3D printing, augmented reality, social entrepreneurship and mentorship. This program creates a more diverse pipeline for future careers in science, technology, engineering and math (STEM) fields; no prior knowledge or experience is required.

The program takes place over the course of two 3-week sessions at Hillsborough Community College Dale Mabry Campus from 9 a.m. to 4 p.m. Before and after care available.

June 5 - June 23, 2023 (Boys)

June 26 - July 14, 2023 (Girls)
